VOL: 47 1969

THE STRUCTURAL ENGINEER

THE JOURNAL OF THE INSTITUTION OF STRUCTURAL ENGINEERS

INDEX VOL. 47 1969

	Page
Abutments:	
Olympic ice stadium at Grenoble	171
—Discussion	375, 427
Skew bridge decks—finite element approach	215, 324
Administration and management: Programming techniques for client, designer and builder	
—Discussion	181
Aircraft, Design and development of the Concorde structure	139
—Discussion	369
Alexander, Earl, of Tunis: Obituary notice	253
Aluminium:	
Design of the Concorde structure	139
—Discussion	369
Libyan Sports Cities —Discussion	163
Olympic ice stadium at Grenoble	171
—Discussion	375, 427
Amateurs or professionals?: discussion on overseas work and structural engineer	13, 241
Annual Dinner, 1969	83, 137, 169, 253
Annual General Meeting, 1969	169, 253, 295
Arches:	
Olympic ice stadium at Grenoble	171
—Discussion	375, 427
Sydney Opera House	99
—Discussion	419
Architecture: World of the structural engineer: Maitland Lecture	3, 42
Armstrong, I. D.: Natural frequencies of multi-storey frames	299
Arup. Ove: World of the structural engineer	3, 42
Arup, O. N. and G. J. Zunz: Sydney Opera House	99
—Discussion	419
Baker, A. L. L., C. W. Yu and P. Regan: Explanatory note on proposed Unified Code Clause on shear in R.C. beams with special reference to Report of Shear Study Group	285
Bardhan-Roy, B. K.: See Bobrowski, J. and B. K. Bardhan-Roy	
Basements:	
Olympic ice stadium at Grenoble	171
—Discussion	375, 427
Rebuilding of Stock Exchange	431
Bate, S. C. C.: Priorities in structural engineering research	15
—Discussion	225
Beams:	
Cantilever supported at free end: transverse impact Précis	344
Composite: Steel-concrete with welded stud connectors —Tests	29
Stud shear-connectors in hogging moment regions	345
Concrete: Combined bending and torsion	151
—Corrigendum	241
Beams (Contd.)	Page
ISE Report on shear strength	2, 47, 84
Sydney Opera House (Ring, Box)	99
—Discussion	419
Ultimate strength in combined flexure and shear	197
Unified Code Clause on Shear	285
Test performances and design of beams with limited pre-stress	487
Continuous: Natural frequencies	233
Non-prismatic with arbitrary transverse loading and end restraint	447
Torsional coupling of core walls in tall buildings	67
Bending:	
Combined bending and torsion in R.C. beams	151
—Corrigendum	214
Natural frequencies of continuous beams	233
Non-prismatic beams with arbitrary transverse loading and end restraint	447
Rebuilding of the Stock Exchange	431
Triangulated dome frameworks: Local instability	317
Torsional coupling of core walls in tall buildings	67
Bennett, E. W. and N. J. Dave: Test performances and design of concrete beams with limited pre-stress	487
Birkenhead: Mersey Tunnel approach viaducts —Discussion	309
Bobrowski, J. and B. K. Bardhan-Roy: Method of calculating ultimate strength of reinforced and prestressed concrete beams in combined flexure and shear	197
Bolton, A.: Natural frequencies of continuous beams	233
Book reviews:	
Analysis of Indeterminate Structures: Alan Williams	483
Brittle Fracture of Welded Plate: W. J. Hall and Others	328
Building Construction, Vol. 3, 4th Ed.: W. B. McKay, edited J. K. McKay	98
Building Construction, Vol. 4, 2nd Ed.: J. K. McKay	328
Building Law Illustrated. A Guide to Practice, 4th Ed.: B. G. Phillips	41
Canada Builds, 1867–1967: T. Ritchie	426
Computer Programs for Structural Analysis: W. Weaver, Jr	14
Concrete Materials and Practice, 4th Ed.: L. J. Murdock and G. F. Blackledge	426
Concrete Reservoirs and Tanks: G. P. Manning	328

Book reviews (Contd.) — Page

Constructions en béton précontrainte Classes —Etats limites, Vol. 1: Etude de la section: Y. Guyon .. 72, 78
Data and Formulae for Engineering Students: Compiled J. C. Anderson and Others .. 328
Design of Reinforced Concrete Structures, 2nd Ed.: S. Ramamrutham .. 426
Design of Shell Roofs, 3rd Ed.: J. E. Gibson .. 27
Design of Shells—A Practical Approach: 3rd Ed.: A. Chronowicz .. 418
Elements of Soil Mechanics for Civil and Mining Engineers: G. N. Smith .. 483
Engineering Mechanics, Vol. 1—Statics: T. C. Huang .. 426
Engineering Plasticity: Papers for Conference, Cambridge, 1968: Edited J. Heyman and F. A. Leckie .. 98
Experimental Stress Analysis: Principles and Methods: G. S. Holister .. 72
Graphics for Engineers: R. Jennings and E. H. Sidwell .. 418, 426
Grundlagen der Bodenmechanik: A. Caquot and J. Kerisel .. 41
Hierarchical Structure: A Model of Design and Planning Processes: M. L. Manheim .. 328
Industrial Training Yearbook, 1967–68: Kogan Page Ltd .. 14
Inelastic Behaviour in Shells: W. Olszak and A. Sawczuk .. 98
Inelastic Space Frames: A. L. L. Baker .. 98
International Association for Bridge and Structural Engineering Publications, Vol. 27, 1967 and Preliminary Publication to 8th Congress, 1968 .. 41, 426
Introduction to Computational Methods, 3rd Impression, 1966: K. A. Redish .. 195
Leichtbeton Bau Konstruktionen: G. Rudnai 98
Line-of-Balance Method: Philip Lumsden .. 98
Prestressed Concrete Structures in Italy, 1962–66: Compiled Gaetano Bologna .. 328
Progress in Applied Materials Research, Vol. 8: Edited E. G. Stanford and Others .. 98
Protective Painting of Structural Steel, 2nd Ed.: F. Fancutt, J. C. Hudson and Others .. 98
Reaction Tables for Uniformly Loaded Continuous Beams on Elastic Supports: R. R. Mozingo .. 41
Reinforced Concrete Detailing: J. A. Barker 78
Roadwork Technology: J. H. Arnison .. 78
Science in Building for Craft Student and Technician, Vol. 2: E. C. Adams .. 418
Shotcreting: A Symposium compiled under the sponsorship of ACI Cttee 506 .. 79
Site Investigation for Foundations. Proceedings of a Symposium, Central Building Research Institute, Roorkee, India, Vol. 1, 1967 .. 14
Site Levelling for Students: J. H. Arnison .. 27
Space Structures: International Conference on Space Structures, University of Surrey, 1966: Edited R. M. Davies .. 328
Strength of Materials: A. A. Ilyushin and V. S. Lensky .. 78
Structural Lightweight Aggregate Concrete: J. K. Nesbit .. 14

Book reviews (Contd.) — Page

Theory of Matrix Structural Analysis: J. S. Pryemieniecki .. 195
Theory of Suspension Bridges, 2nd Ed.: Sir Alfred Pugsley .. 195
Transport Technology for Developing Regions: Study of Road Transportation in Venezuela: R. M. Soberman .. 41
Ultimate Load Design of Concrete Structures. Proceedings of Symposium held at PSG College of Technology, Coimbatore, 1967: V. Ramakrishnan .. 41
Ultimate Load Design of Continuous Concrete Beams: D. Beckett .. 426
Variational Methods in Elasticity and Plasticity: Kyuichiro Washizu .. 41
Welding Handbook, Sections 4 and 5, 5th Ed.: Edited A. L. Phillips .. 162
Brickwork: ISE recommendations, 'Guidance on design of domestic accommodation in load-bearing brickwork and blockwork' .. 213
Bridges:
Analysis of multi-cell bridges without transverse diaphragms .. 455
Analysis of skew bridge decks—finite element approach .. 215
Captions to figures and tables 324
Behaviour of a braced suspension bridge cable 351
Birkenhead—Mersey Tunnel approach viaducts —Discussion 309
Distribution of concentrated loads on orthotropic bridge decks .. 377
Western Avenue Extension .. 85
—Discussion 413
Buckling:
Local instability analysis of triangulated dome frameworks .. 317
Rebuilding of Stock Exchange .. 431
Welded steel plates in compression .. 49
—Discussion 313
Building and buildings:
Amateurs or professionals? Discussion on overseas work and Chartered Structural Engineer .. 13, 241
British standard code of practice for loading—wind loads .. 393
Dimensional co-ordination for metric structures .. 475
Explosions in domestic structures .. 403
Implications of Report on flats at Ronan Point —Open Discussion 255, 387
Institution's comment on proposed amendments to building regulations .. 341, 376
Institution Report, 'Aims of structural design' 297, 342, 430
Libyan Sports Cities —Discussion 163
Priorities in structural engineering research 15
—Discussion 225
Programming techniques for client, designer and builder —Discussion 181
Rebuilding of the Stock Exchange .. 431
Role of consulting structural engineer in the 70s .. 467, 501
Bullen, F. R.: Obituary notice .. 429
Cables: Behaviour of braced suspension bridge cable .. 351

	Page
Cantilever supported at free end: Transverse impact	344
Chan, W. W.: Programming techniques for client, designer and builder —Discussion	181
Chapman, J. C.: See Neogi, P. K., H. K. Sen and J. C. Chapman	
Charter and Byelaws: Institution amendments	83, 134, 253
Chaudhry, H. R.: See Thukral, B. L. and H. R. Chaudhry	
Cladding:	
Olympic ice stadium at Grenoble	171
—Discussion	375, 427
Sydney Opera House (Ceramic tiles on pre-cast concrete)	99
—Discussion	419
Clark, P. J.: See Gray, S. R., P. J. Clark and A. R. Gent	
Clay: Soil stabilization employing surface and depth vibrators —Discussion	157
Codes of Practice:	
British Standard for loading—wind loads	393
Dimensional co-ordination for metric structures	475
Explosions in domestic structures	403
Proposed Unified Code Clause on shear in R.C. beams	285
Report of inquiry into collapse of flats at Ronan Point —Open Discussion	255, 387
Role of consulting structural engineer in the 70s	467, 501
Columns:	
Concrete-filled tubular steel under eccentric loading	187
Mersey Tunnel approach viaducts —Discussion	309
Rebuilding of Stock Exchange	431
Strut behaviour of new high yield stress structural steel	73
—Correction	150
Welded steel plates in compression	49
—Discussion	313
Composite construction:	
Concrete-filled tubular steel columns under eccentric loading	187
Mersey Tunnel approach viaducts —Discussion	309
Steel-concrete composite beams with welded stud connectors	29
Stud shear connectors in hogging moment regions of composite beams	345
Computation:	
Analysis of multi-cell bridges without transverse diaphragms	455
Analysis of skew bridge decks	215
—Captions to figures and tables	324
Design and development of the Concorde structure	139
—Discussion	369
Distribution of concentrated loads on orthotropic bridge decks	377
Sydney Opera House (use of electronic computers)	99
—Discussion	419
Concert halls: Sydney Opera House	99
—Discussion	419
Concorde: design and development	139
—Discussion	369
Concrete:	
Cellular: Analysis of multi-cell bridges without transverse diaphragms	455
Codes:	
British Standard for loading—wind loads	393
Proposed Unified Code Clause on shear in R.C. beams	285
Combined bending and torsion in R.C. beams	151
—Corrigendum	214
Composite beams: Steel-concrete with welded stud connectors	29
Stud shear-connectors in hogging moment regions	345
Detailing: Additional recommendations to 1968 Report	325
Orthotropic bridge decks—distribution of concentrated loads	377
Precast, prestressed, etc.:	
Collapse of flats at Ronan Point —Open discussion	255, 387
Libyan Sports Cities —Discussion	163
Mersey Tunnel approach viaducts— —Discussion	309
Olympic ice stadium at Grenoble	171
—Discussion	375, 427
Rebuilding of the Stock Exchange	431
Report on formulae for computation of strength of reinforced and prestressed members Corrigendum	308
Sydney Opera House	99
—Discussion	419
Concrete beams with limited pre-stress—Tests	487
Western Avenue extension	85
—Discussion	413
Priorities in structural engineering research	15
—Discussion	225
Strength:	
High strength concrete—manufacture and properties	441
ISE Report on shear strength of R.C. beams	2, 47, 84
Ultimate strength of R.C. and prestressed beams in combined flexure and shear	197
Stress-strain curves: concrete-filled tubular steel columns	187
Construction and construction industry:	
Dimensional co-ordination for metric structures	475
Libyan Sports Cities —Discussion	163
Priorities in structural engineering research	15
—Discussion	225
Programming techniques for client, designer and builder —Discussion	181
Role of consulting structural engineer in the 70s	467, 501
Western Avenue extension	85
—Discussion	413
Contracts:	
Amateurs or professionals? Discussion on overseas work and Chartered Structural Engineer	13, 241
Collapse of flats at Ronan Point—Open discussion	255, 387

Contracts (Contd.) *Page*
Libyan Sports Cities —Discussion 163
Coombe, T. W.: See Harpur, N. F., M. A. Taunton and T. W. Coombe
Cope, R. J.: See Sawko, F. and R. J. Cope
Creep: Design and development of the Concorde structure 139
—Discussion 369
Cusens, A. R. and R. P. Pama: Distribution of concentrated loads on orthotropic bridge decks 377
Das, Shri R. N.: Transverse impact on a cantilever supported at the free end —Précis 344
Dave, N. J.: See Bennett, E. W. and N. J. Dave
Davies, Colin: Tests on half-scale steel-concrete composite beams with welded stud connectors 29
Davies, S. R.: See Fairbairn, D. R. and S. R. Davies
Deflection: Beams
Non-prismatic beams with arbitrary transverse loading and end restraint 447
Test performances and design of concrete beams with limited pre-stress 487
Tests on half-scale steel-concrete composite beams with welded stud connectors .. 29
Design:
Amateurs or professionals? Discussion on overseas work and structural engineer .. 13, 241
Collapse of flats at Ronan Point —Open Discussion 255, 387
Design and development of the Concorde structure 139
—Discussion 369
Explosions in domestic structures 403
ISE Report—'Aims of structural design' 297, 342, 430
Libyan Sports Cities —Discussion 163
Priorities in structural engineering research 15
—Discussion 225
Programming techniques for client, designer and builder —Discussion 181
Rebuilding the Stock Exchange 431
Role of consulting structural engineer in the 70s 467, 501
World of the structural engineer 3, 42
Detailing of reinforced concrete: additional recommendations to 1968 Report 325
Dimensional co-ordination for metric structures 475
Domes:
Libyan Sports Cities —Discussion 163
Local instability analysis of triangulated dome frameworks 317
Drury Medal Competition 1969, 42, 48, 134, 162, 196, 214, 293, 327, 374
Dunican, P. and J. Martin: Rebuilding of the Stock Exchange—the first phase 431
Dwight, J. B. and K. E. Moxham: Welded steel plates in compression 49
—Discussion 313
Dynamic analysis: Natural frequencies of multi-storey frames 299
Economics:
Amateurs or professionals? Discussion on overseas work and the structural engineer 13, 241
Priorities in structural engineering research 15
—Discussion 225

Economics (Contd.) *Page*
Western Avenue extension 85
—Discussion 413
World of the structural engineer 3, 42
Education:
Amateurs or professionals? Discussion on overseas work and structural engineer .. 13, 241
Courses at Universities and Technical Colleges 284, 298, 341
Edwards, P. B.: Dimensional co-ordination for metric structures 475
Erection:
Collapse of flats at Ronan Point —Open discussion 255, 387
Mersey Tunnel approach viaducts —Discussion 309
Olympic ice stadium at Grenoble 171
—Discussion 375, 427
Rebuilding of Stock Exchange 431
Western Avenue extension 85
—Discussion 413
Esquillan, N.: Olympic ice stadium at Grenoble 171
—Discussion 375, 427
Examinations:
Courses at Universities and Technical Colleges 284, 298, 341
England Institution examinations, 1970 .. 499
Examiners' comments and reports 232, 249, 484, 499
—Correction 374
Structural Engineering Technician Certificate 429, 461, 465
Excavation:
Soil stabilization employing surface and depth vibrators —Discussion 157
Explosions: in domestic structures 403
Exporting: Amateurs or professionals?—discussion on overseas work and the structural engineer 13, 241
Failures:
British Standard Code of Practice for loading —wind loads 393
Collapse of flats at Ronan Point—Open discussion 255, 387
Explosions in domestic structures 403
Fairbairn, D. R. and S. R. Davies: Combined bending and torsion in reinforced concrete beams 151
—Corrigendum 214
Fatigue: Design and development of the Concorde structure 139
—Discussion 369
Fire resistance and tests:
Collapse of flats at Ronan Point —Open discussion 255, 387
Explosions in domestic structures 403
Ultimate strength of reinforced and prestressed concrete beams in combined flexure and shear—method of calculation .. 197
Flats:
Collapse of flats at Ronan Point —Open discussion 255, 387
Explosions in domestic structures 403
Soil stabilization employing surface and depth vibrators —Discussion 157
Floors:
Collapse of flats at Ronan Point —Open discussion 255, 387

Floors (Contd.) *Page*
Libyan Sports Cities (Precast slabs) —Discussion 163
Rebuilding of the Stock Exchange (Concrete) 431
Formwork:
Olympic ice stadium at Grenoble 171
—Discussion 375, 427
Rebuilding of the Stock Exchange (Slip-form) 431
Foundations:
Libyan Sports Cities —Discussion 163
Olympic ice stadium at Grenoble (raft and piled) 171
—Discussion 375, 427
Rebuilding of the Stock Exchange (raft and piled) 431
Soil stabilization employing surface and depth vibrators —Discussion 157
Sydney Opera House (Concrete) 99
—Discussion 419
Frames:
Behaviour of a braced suspension bridge cable (Space) 351
Design and development of Concorde structure 139
—Discussion 369
Dimensional co-ordination for metric structures 475
Local instability analysis of triangulated dome frameworks (Space) 317
Natural frequencies of continuous beams (Portal, trussed) 233
Natural frequencies of multi-storey frames .. 299
Olympic ice stadium at Grenoble 171
—Discussion 375, 427
Sydney Opera House (Space) 99
—Discussion 419
Torsional coupling of core walls in tall buildings (Multi-storey) 67
Unified Code Clause on Shear in R.C. beams 285
Western Avenue extension (Steel) 85
—Discussion 413
Gent, A. R.: See Gray, S. R., P. J. Clark and A. R. Gent
Girders:
Mersey Tunnel approach viaducts (box) —Discussion 309
Western Avenue extension 85
—Discussion 413
Glasgow housing: Soil stabilization by vibration —Discussion 157
Gray, S. R., P. J. Clark and A. R. Gent: Birkenhead—Mersey Tunnel approach viaducts —Discussion 309
Greenwood, R. D.: See Johnson, R. Paul, R. D. Greenwood and K. Van Dalen
Grenoble: Olympic ice stadium 171
—Discussion 375, 427
Grillages and Grids: Local instability analysis of triangulated dome frameworks 317
Harpur, N. F., M. A. Taunton and T. W. Coombe: Design and development of the Concorde structure 139
—Discussion 369
Harris, A. J.: High strength concrete—manufacture and properties 441
History:
Rebuilding the Stock Exchange 431

History (Contd.) *Page*
Role of consulting structural engineer in the 70s 467, 501
Honours and Awards .. 47, 213, 297, 342, 430
Horsley, P. D. M.: See Strymowicz, G. and P. D. M. Horsley
House construction and housing:
Explosions in domestic structures 403
Glasgow—Soil stabilization employing vibrators —Discussion 157
Programming techniques for client, designer and builder —Discussion 181

Ronan Point flats:
Explosion in domestic structures 403
Report of Open Discussion meeting on implications of report of inquiry 255, 387
Roofs:
Olympic ice stadium at Grenoble (Shell) .. 171
—Discussion 375, 427
Sydney Opera House (Shell) 99
—Discussion 419
Rules of Conduct 254
Safety, structural:
Collapse of flats at Ronan Point
—Open discussion 255, 387
Explosions in domestic structures 403
Sawko, F. and R. J. Cope: Analysis of multi-cell bridges without transverse diaphragms—a finite element approach 455
Analysis of skew bridge decks—a new finite element approach 215
—Captions to figures and tables 324
Scaffolding: Olympic ice stadium at Grenoble 171
—Discussion 375, 427
Sen, H. K.: See Neogi, P. K., H. K. Sen and J. C. Chapman
Settlement studies: Soil stabilization employing surface and depth vibrators —Discussion 157
Shear:
Connectors: stud shear in hogging moment regions of composite beams 345
Connectors: tests on half-scale steel-concrete composite beams with welded stud connectors 29
Shear strength of R.C. beams—Report 2, 47, 84
Torsional coupling of core walls in tall buildings 67
Ultimate strength of reinforced and prestressed concrete beams in flexure and shear 197
Unified Code Clause on shear in R.C. beams with reference to Report of Shear Study Group 285
Shell construction:
Local instability analysis of triangulated dome frameworks 317
Olympic ice stadium at Grenoble 171
—Discussion 375, 427
Sydney Opera House 99
—Discussion 419
Shippen, C.: See McDowell, W. J. and C. Shippen
Site investigation:
Libyan Sports Cities —Discussion 163
Sydney Opera House 99
—Discussion 419
Slabs: Skew bridge decks, finite element approach 215, 324
Soils:
Soil stabilization employing surface and depth vibrators —Discussion 157
Western Avenue extension 85
—Discussion 413
Special study groups: Formation .. 297, 342, 429
Sports stands and stadia:
Libyan Sports Cities —Discussion 163
Sports stands and stadia (Contd.) *Page*
Olympic ice stadium at Grenoble 171
—Discussion 375, 427
Standards: Dimensional co-ordination for metric structures 475
See also: Codes of Practice
Steel and steel structures:
Behaviour of a braced suspension bridge cable (high strength) 351
Combined bending and torsion in R.C. beams (reinforcement) 151
—Corrigendum 214
Concrete-filled tubular steel columns under eccentric loading 187
Mersey Tunnel approach viaducts
—Discussion 309
Priorities in structural engineering research— 15
—Discussion 225
Strut behaviour of a new high yield stress structural steel 73
—Correction 150
Tests on half-scale steel-concrete composite beams with welded stud connectors .. 29
Welded steel plates in compression 49
—Discussion 313
Western Avenue extension (steel scaffolding) 85
—Discussion 413
Stock Exchange, rebuilding: the first phase .. 431
Stone, C. B.: President, 1969–70 343
Presidential Address, 1969—The role of the consulting structural engineer in the '70s .. 467, 501
Stott, P. R.: See Poskitt, T. J. and P. R. Stott
Strengthening: Implications of Report on Collapse of flats at Ronan Point—Open discussion 255, 387
Stresses and strains:
Beams, concrete, with limited pre-stress .. 487
Combined bending and torsion in R.C. beams 151
—Corrigendum 214
Concrete-filled tubular steel columns under eccentric loading 187
Design and development of the Concorde structure 139
—Discussion 369
Stress distribution around cardiodal hole in a plate —Précis 344
Stress distribution around elliptic hole in a plate —Précis 344
Strut behaviour of a new high yield stress structural steel 73
—Correction 150
Sydney Opera House 99
—Discussion 419
Welded steel plates in compression 49
—Discussion 313
Stretch, K. L.: Explosions in domestic structures, Part 2. Relationship between containment characteristics and gaseous reactions .. 403, 408
Structural analysis:
Analysis of multi-cell bridges without transverse diaphragms (finite element) 455
Analysis of skew bridge decks (finite element) 215
—Captions to figures and tables 324
Behaviour of a braced suspension bridge cable (iteration method) 351
Design and development of the Concorde structure (finite element) 139
—Discussion 369

Structural anlysis (Contd.) *Page*
- Distribution of concentrated loads on orthotropic bridge decks (computer) 377
- Local instability analysis of triangulated dome frameworks 317
- Natural frequencies of continuous beams .. 233
- Natural frequencies of multi-storey frames .. 299
- Numerical solution for non-prismatic beams with arbitrary transverse loading and end restraint conditions 447
- Sydney Opera House (stiffness and flexibility methods) 99
  —Discussion 419

Structural engineers and structural engineering:
- Discussion on overseas work and the Chartered Structural Engineer 13, 241
- Priorities in structural engineering research.. 15
  —Discussion 225
- Role of the consulting structural engineer in the '70s 467, 501
- Technician Certificate 429, 461, 465
- World of the structural engineer 3, 42

Struts: Behaviour of a new high yield stress structural steel 73
  —Correction 150

Strymowicz, G. and P. D. M. Horsley: Strut behaviour of a new high yield stress structural steel 73
  —Correction 150

Stud shear-connectors:
- In hogging moment regions of composite beams 345
- Welded, in steel-concrete composite beams.. 29

Swimming pools: Libyan Sports Cities
  —Discussion 163

Sydney Opera House 99
  —Discussion 419

System engineering: World of the structural engineer 3, 42

Tall buildings:
- Collapse of flats at Ronan Point
  —Open discussion 255, 387
- Rebuilding the Stock Exchange 431
- Torsional coupling of core walls in tall buildings 67

Taunton, M. A.: See Harpur, N. F., M. A. Taunton and T. W. Coombe

Technical College and University courses 284, 298, 341

Technicians:
- Role of the consulting structural engineer in the '70s 467, 501
- Structural Engineering Technician Certificate 429, 461, 465

Temperature effects: Design and development of the Concorde structure 139
  —Discussion 369

Temporary structures: Western Avenue extension 85
  —Discussion 413

Testing:
- Behaviour of a braced suspension bridge cable 351
- Calculating the ultimate strength of reinforced and prestressed concrete beams in combined flexure and shear 197

Testing (Contd.) *Page*
- Combined bending and torsion in reinforced concrete beams 151
  —Corrigendum 214
- Concrete-filled tubular steel columns under eccentric loading 187
- Design and development of the Concorde structure 139
  —Discussion 369
- Distribution of concentrated loads on orthotropic bridge decks 377
- Mersey Tunnel approach viaduct—model testing —Discussion 309
- Natural frequencies of continuous beams .. 233
- Soil stabilization employing surface and depth vibrators (load test) —Discussion 157
- Strut behaviour of a new high yield stress structural steel 73
  —Correction 150
- Stud shear-connectors in hogging moment regions of composite beams 345
- Tests on half-scale steel-concrete composite beams with welded stud connectors .. 29
- Test performances and design of concrete beams with limited pre-stress 487
- Transverse impact on a cantilever supported at the free end —Précis 344
- Welded steel plates in compression 49
  —Discussion 313

Theatre and concert halls: Sydney Opera House 99
  —Discussion 419

Thorburn, S. and R. S. L. MacVicar: Soil stabilization employing surface and depth vibrators —Discussion 157

Timber facades: Olympic ice stadium at Grenoble 171
  —Discussion 375, 427

Torsion:
- Combined bending and torsion in R.C. beams 151
  —Corrigendum 214
- Rebuilding the Stock Exchange 431
- Torsional coupling of core walls in tall buildings 67

Towers and masts: British Standard Code of Practice for loading—wind loads 393

Thukral, B. L.: Stress distribution around elliptical hole in a plate —Précis 344

Thukral, B. L. and H. R. Chaudhry: Stress distribution around cardiodal hole in a plate —Précis 344

Ultimate load design:
- Calculation of ultimate strength of reinforced and prestressed concrete beams in combined flexure and shear 197
- Combined bending and torsion in reinforced concrete beams 151
  —Corrigendum 214

University and Technical College courses 284, 298, 341

Van Dalen, K.: See Johnson, R. Paul, R. D. Greenwood and K. Van Dalen

Viaducts: Mersey Tunnel approach viaducts
  —Discussion 309

Vibration:
- Natural frequencies of continuous beams .. 233
- Natural frequencies of multi-storey frames .. 299
- Transverse impact on cantilever supported at free end —Précis 344
